A. Programme's Mission and Objectives:

Mission:

The mission of online and distance learning BBA programme is that the business world today is more complex, dynamic and ever demanding than before. Computers, information-technology, liberalization and globalization all together are shaping our businesses and lives at an inconceivably fast pace. The technologies are heavy, the challenges are many. The MATS University has designed management programs to suit dynamic and responsive business and management.

The MATS University strives to embody and usher in a new concept in the field of business studies in India. The relevance and usefulness of these programs is underlined by their pragmatic and innovative yoking together of the theories and practices of management with those of information technology. Such an interdisciplinary integration aims at achieving and inculcating in the students a strategic perspective and edge necessary for effective and incisive decision making within an ever-fluid Indian business and industry scenario. The university offers an interactive learning process through spontaneity in teacher-student relationship. The skills imparted here are in conformity with those demanded by the ever-changing corporate expectations. The industrial exposure vitally supports the honing of the budding managers and provides them with the cutting-edge know-how, a primary prerequisite of the new age manager. is to empower students with comprehensive theoretical knowledge and practical skills in computer applications through accessible, flexible, and innovative online and distance learning education, fostering adept professionals for the evolving digital landscape. The programme aims to produce competent business professionals with the ability to face future challenges.

Objectives:

The online and distance learning Bachelor of Business Administration (BBA) programme is a three-year graduate programme having six semesters that focuses on business management, leadership, and strategic decision-making.

Key Objectives:

1. To develop managerial skills by equipping students with leadership, problem-solving, and decision-making abilities essential for business management.
2. To enhance business knowledge by providing a strong foundation in business principles,

including finance, marketing, human resources, and operations.

3. To encourage entrepreneurial thinking by fostering innovation and entrepreneurship and teaching students how to create and manage a business.
4. To improve communication and leadership by strengthening verbal, written, and interpersonal communication skills crucial for corporate success.
5. To promote analytical and critical thinking by training students in data analysis, strategic planning, and market research to solve business challenges.
6. To foster ethical and social responsibility by instilling values of corporate social responsibility, sustainability, and business ethics.
7. To prepare for the global business environment by equipping students with knowledge of international trade, business laws, and cross-cultural management for global competitiveness.

B. Relevance of the Programme with University's Mission and Goals:

The online learning BBA programme is aligned with MATS University's mission to create a learning environment that nurtures creativity, innovation, and critical thinking among students. Designed to offer a world-class education in business and management, the programme focuses on developing skilled professionals who can make meaningful contributions to the corporate world and society. It also promotes an inclusive and diverse learning environment, essential for preparing professionals to excel in multicultural and global business settings. The programme emphasizes practical and project-based learning, enabling students to develop essential skills in teamwork, leadership, and communication. These competencies equip graduates to succeed in various business and management roles.

C. Nature of Prospective Target Group of Learners:

This Programme is specifically designed to meet the requirement of learners who are not able to accomplish their educational goal through the conventional mode of education. The learners who are working professionals, housewives, reside in tribal or rural areas and not able to join the regular programme due to various reasons, are our target group of learners. Learners who want to enrol themselves in this particular programme must have completed 10+2 or equivalent certificate.

D. Appropriateness of Programme to be Conducted in Open and Distance Learning Mode to Acquire Specific Skills and Competence:

The online mode of MATS University system places greater emphasis on the learner, where most of the instruction is delivered through distance mode with only a minimal component of face-to-face communication. Students will have the flexibility to learn at their own pace. They can access course materials and resources online and progress through the programme as per their convenience. It allows students to attend classes from anywhere, eliminating geographical barriers and offering more opportunities for students to learn and acquire specific skills and competencies. The Online mode will provide an opportunity to learn in a technology-driven environment for the students where they can access online resources and learning materials, attend virtual classrooms, participate in online discussions, and engage with other students and faculty through various collaborative tools. This provides a highly immersive and interactive learning experience, helping students to develop critical thinking, analytical, and problem-solving skills.

The Bachelor of Business Administration (BBA) programme is highly suitable for delivery in Online Learning modes, as it provides flexibility, self-paced learning, accessibility, technology-driven education, and personalized learning. These factors are crucial for students to develop the skills and competencies necessary for successful careers in business management and administration.

Business Case Analysis (OLBBASEC014)

In this course, students will receive instruction from primary course instructors as well as guest lecturers who will present specific information necessary for analyzing and presenting business cases.

After each major learning unit, students will work in groups to produce and present an assignment demonstrating their application of the concepts learned in class. Each team will be assigned a case from past case competitions, which will serve as the foundation for their assignments and final presentation.

Students will learn to develop, write, and solve business and management cases related to various subjects taught during the semester, including:

- Management Concepts
- Managerial Economics
- Accounting
- Business Communications
- Business Environment
- Behavioral Science

Case Analysis and Presentation Requirements:

- Students will be divided into groups (minimum two and maximum three members per group).
- Each group will analyze the assigned case and prepare a structured presentation.
- The group presentation will be 5–10 minutes long.
- Presentations will be evaluated by both an internal and an external examiner.

the relevant data with the help of questionnaire and observation method. He/she is expected to complete the project report in a nice manner (types and bind) after getting consultation from the guide of the company and guide from the institution He is supposed to prepare Two copies of the project report.

GUIDELINES FOR SUBMISSION PROJECTS AND SUMMER INTERNSHIP

All the candidates of BBA-IV SEMESTER after their term end examinations are required to submit a project-report based on the work done by him/her during the summer period.

THE GUIDE

The Guide for BBA would be a person from the MATS

A guide cannot guide more than six projects at a given time.

PROJECT TIME / MAN-HOURS

➤The BBA Major Projects would be of approximately 4 to 6 weeks and carries total marks of 50 including project report and viva.

➤Number of students in a project group will not be more than three for BBA.

PROJECT EVALUATION GUIDELINES

A.) The evaluation of Major Project /Summer Assignment will be done on the basis of following heads:

Presentation and viva - 30% of total marks.

Thesis/Project report - 70% of total marks.

B.) To be done at MATS Campus by External Examiner

Presentation and viva - 30% of total marks.

Thesis/Project report - 70% of total marks.

The evaluation of Major/Minor Project will be done on the basis of following heads:

SUMMARY/ABSTRACT

All students must submit a summary/abstract separately with the project report. Summary, preferably, should be of about 3-4 pages. The content should be as brief as is sufficient enough to explain the objective and implementation of the project that the candidate is going to take up. The write up must adhere to the guidelines and should include the following:

- Name / Title of the Project
- Statement about the Problem
- Why is the particular topic chosen?
- Objective and scope of the Project
- Methodology (including a summary of the project)
- What contribution would the project make?

TOPIC OF THE PROJECT- This should be explicitly mentioned at the beginning of the Synopsis. Since the topic itself gives a peep into the project to be taken up, candidate is advised to be prudent on naming the project. This being the overall impression on the future work, the topic should corroborate the work.

OBJECTIVE AND SCOPE: This should give a clear picture of the project. Objective should be clearly specified. What the project ends up to and in what way this is going to help the end user has to be mentioned.

RESOURCES AND LIMITATIONS: The requirement of the resources for designing and developing the proposed system must be given. The resources might be in form of the hardware/software or the data from the industry. The limitation of the proposed system in respect of a larger and comprehensive system must be given.

CONCLUSION: The write-up must end with the concluding remarks-briefly describing innovation in the approach for implementing the Project, main achievements and also any other important feature that makes the system stand out from the rest.

The following suggested guidelines must be followed in preparing the Final project Report:

Good quality white executive bond paper A4 size should be used for typing and duplication. Care should be taken to avoid smudging while duplicating the copies.

Project-Preparation of a Business Plan (OLBBARP002)

Progressive Creation and Expected Outcome:

This Project is a semester-long project that will require immediate and continuous work throughout the entire 13 weeks of the semester. To help keep you on track for successful completion of the project will include the following:

- Create and submit a description of your group structure, roles and responsibilities.
- Conceive and select two business ideas with mission statements and general descriptions of the product/service to be offered and a reasonable discussion of how each business will meet all of the required criteria for the project.
- Based on feedback received from the instructor, select one of the two businesses to

form the basis for your business plan.

- Submit an industry analysis
- Submit a market analysis, plan, and sales forecast
- Submit a cash budget

Guidelines:

The idea behind the business plan is to familiarize students more extensively with the problems related to the business issues and also to allow them to deal with examples of the practical problems that always are ahead while starting a business plan. This assignment is a semester-long project that will require immediate and continuous work throughout the entire 13 weeks of the semester. To help keep students on track for successful completion of the course, there will be many assignments due throughout the semester.

Duration of the Programme:

The minimum duration of the programme is three years and maximum duration is six years.

Medium of the Programme:

English is the medium of the programme and examination written in English medium.

Requirement of Faculty and Supporting Staff:

Supporting staff will be deputed at the learner supported Centre as per the need of course curriculum.

Category	Existing
Professor	01
Associate Professor	01
Assistant Professor	03

Instructional Delivery Mechanism and Usage of Media:

As the programme will offer in MATS Online Education mode there are various instructional delivery mechanisms and media will be used to effectively deliver content to the learners. The programme delivery mechanism used by MCDOE follows a multimedia approach for instructions, which are as follows:

- The electronic self-learning material (e-SLM) which covers all the metrics of the programme will be deliver to the learners for every course.
- Learning Management System (LMS) is an online platform that provides a centralized location for students to access learning content, engage in discussions, submit assignments, and take assessments. The LMS provides a user-friendly interface that is accessible on multiple devices, such as desktops, laptops, tablets, and smartphones.
- Webinars can be used for lectures, discussions, or interactive sessions with students. Pre-recorded video lectures can be used to deliver course content in a concise and engaging way. Interactive multimedia includes simulations, games, and quizzes that are designed to reinforce learning.
- Discussion forums can be used to facilitate group discussions, peer-to-peer learning, and to provide feedback and support. Online and face-to-face counselling will be provided by academic counsellors appointed for the programme.
- The counseling sessions are held as per schedule drawn by the MCDOE. These counselling sessions are held in non-working hours for the learners so they can attend the counselling session properly and regularly to enhance their learning skills.
- Live session will be conducted through the use of Internet Communication Technologies (ICT) from the University's studio, the schedule of which is made available at the Leaner Support System.
- Programmes which have industrial training/practical/ project component are held at University's learners support centers and Attendance of the leaner in this part of the courses is compulsory. As per guidelines Project Work of the programme will be done by the learners and regarding this a complete guide will be deliver to the learner along with study material.
- The e-SLM will be dispatched periodically to the enrolled learners for each course of the programme. These e-SLM's will be very helpful to the learners in effective learning. The assignment for internal assessment of learner's shall be deliver to the learners along with the e-SLM. Online modules are also available in the University's website for some programme.

- The contact classes and counselling schedule will be of 30 days in a year which will be divided as 15 days in each semester. The schedule of contact classes of the programme shall be communicated to the student through the various medium.

Learner Support Services:

MATS Online Education has a fully-fledged Learner Support Services to provide guidance and help to its learners. All the necessary information has been provided to all the learner via various medium like website, helpdesk, email and by person-to-person interaction via teleconferencing and calling.

Programme Delivery for Online Mode:

The curriculum is delivered through the e-Self Learning Materials (e-SLMs) in the form of e-Contents/e-SLM/e-Books supported by various learning resources including audio-video aids through Learning Management System (as per four quadrant approach) along with the online contact hours with discussion forums and synchronous live interactive sessions conducted through LMS as per the UGC norms for delivery of course.

Learning Management System (LMS) to Support Course Delivery for OL and/or Online Mode:

The Learning Management System (LMS) is designed to facilitate the students to have a Global learning experience. LMS has user friendly interface approach through which the learning is made easy, interesting and meeting the global standards of learning. The audio-visual mode of teaching, the self-learning materials, discussion forums and evaluation patterns are unique and meeting the requirements of the industry and as per UGC guidelines of four quadrants approach.

The students can experience uninterrupted learning 24x7 through web and mobile at the pace chosen by them. The user interface will be simple and easy to navigate through the e-learning modules; the LMS will provide seamless accessibility with all the learning tools designed as per standard norms for an easy and interesting learning experience.

Course Design Delivery:

The Course content is designed as per the 4-quadrant approach to facilitate seamless delivery and learning experience as given below.

- Quadrant-I: Includes e-Tutorial, contains – Faculty led Video and Audio Contents, Simulations, video Demonstrations, Virtual Labs.
- Quadrant-II: Includes e-Content, self-instructional material– Portable Document Format, e-Books, Illustration, Video demonstrations, web resources, related links and open-source content on Internet.
- Quadrant-III: Includes Discussion forums to raise and clarify doubts on real time basis by the Course Coordinator and his team.
- Quadrant-IV: includes Self-Assessment that contains problems and solutions, contains MCQs, Fill in the blanks, SAQs, LAQs, Quizzes, Assignments with solutions and clarification and Discussion forum topics.

Nature of Contact Classes:

Based on the course material, the counsellors are expected to guide and talk with the learners during the contact class sessions. By talking with their coworkers and the counsellor during contact sessions, the learners can work through their problems and this will help them to understand the programme objectives to learn with ease. In addition to these contact sessions, learners must participate in various training programs run by the relevant learner support system provided by the University which also including practical training approach as per Programme's structure.

The guidelines of the University/SWAYAM portal/UGC shall be followed for evaluation and certification of MOOCs, Vocational Courses, Field Projects/ Internship/ Apprenticeship/ Community engagement and service/ Honours with Research Project.

Letter Grades and Grades Point:

The Semester Grade Point Average (SGPA) is computed from the grades as a measure of the student's performance in a given semester. The SGPA is based on the grades of the current term, while the Cumulative GPA (CGPA) is based on the grades in all courses taken after joining the programme of study.

The University may also mention marks obtained in each course and a weighted average of marks based on marks obtained in all the semesters taken together for the benefit of students.

Grading System

Letter Grade	Grade Points	Description	Range of Marks (%)
O	10	Outstanding	>90 to ≤100
A+	9	Excellent	>80 to ≤90
A	8	Very Good	>70 to ≤80
B+	7	Good	>60 to ≤70
B	6	Above Average	>50 to ≤60
C	5	Average	>40 to ≤50
P	4	Pass	=40
F	0	Fail	<40
Ab	0	Absent	Absent

■ Computation of SGPA and CGPA:

UGC recommends the following procedure to compute the Semester Grade Point Average (SGPA) and Cumulative Grade Point Average (CGPA):

- I. The SGPA is the ratio of the sum of the product of the number of credits with the grade points scored by a student in all the courses taken by a student and the sum of the number of credits of all the courses undergone by a student, i.e.

$$\text{SGPA (Si)} = \sum (C_i \times G_i) / \sum C_i$$

Where C_i is the number of credits of the i th course and G_i is the grade point scored by the learner in the i th course.

Example of Computation of SGPA

Semester	Course	Credit	Letter Grade	Grade point	(Credit x Grade)
1	Course 1	3	A	8	3 x 8 = 24
1	Course 1	4	B +	7	4 x 7 = 28
1	Course 1	3	B	6	3 x 6 = 18
1	Course 1	3	O	10	3 x 10 = 30
1	Course 1	3	C	5	3 x 5 = 15
1	Course 1	4	B	6	4 x 6 = 24
		20			139
SGPA					139/20=6.95

II.

- III. The Cumulative Grade Point Average (CGPA) is also calculated in the same manner taking into account all the courses undergone by a student over all the semesters of a programme, i.e.

$$CGPA = \sum(C_i \times S_i) / \sum C_i$$

where S_i is the SGPA of the i th semester and C_i is the total number of credits in that semester.

Example of Computation of CGPA

Semester 1	Semester 2	Semester 3	Semester 4
Credit 20 SGPA 6.9	Credit 20 SGPA 7.8	Credit 20 SGPA 5.6	Credit 20 SGPA 6.0
CGPA = $(20 \times 6.9 + 20 \times 7.8 + 20 \times 5.6 + 20 \times 6.0) / 80 = 6.6$			

The SGPA and CGPA shall be rounded off to 2 decimal points and reported in the transcripts.

On completing all requirements for the award of the undergraduate certificate/ diploma/ degree, the CGPA shall be calculated, and this value shall be indicated on the certificate /diploma/degree. The 3-years (6 semester) and 4-years (8 semester) undergraduate degrees should also indicate the Division obtained as per following Table:

Distribution of Divisions

Division	Criterion
First division with distinction	The candidate has earned minimum number of credits for the award of the degree with CGPA of 7.5 or above
First division	The candidate has earned minimum number of credits required for the award of the degree with CGPA of 6.0 above but less than 7.5
Second division	The candidate has earned minimum number of credits required for the award of the degree with CGPA of 4.5 or above but less than 6.0
Third Division	The candidate has earned minimum number of credits required for the award of the degree with CGPA of 4.00 or above but less than 4.5

Note: The conversion of CGPA into percentage shall be as followed to facilitate its application in other academic matters.

Equivalent Percentage = $\text{CGPA} \times 10$. The percentage shall be rounded off up to the second decimal point.

The candidate shall be awarded a certificate/diploma/degree when he/she successfully earns the minimum required credits for the certificate/diploma/degree.

▪ **Issue of Transcript:**

Based on the recommendations on Letter grades, grade points and SGPA and CGPA, the university shall issue the transcript for each semester and a consolidated transcript indicating the performance in all semesters.

▪ **Credit Transfer:**

1. The credit transfer shall be implemented as per the policy of the University framed in accordance with the guidelines issued by the UGC from time to time.
2. The member institutions of the Academic Bank of Credit established vide University Grants Commission (Establishment and Operation of Academic Bank of Credits in Higher Education) Regulations 2021 shall accept and transfer the credits as per the provisions of this regulation as amended from time to time.
3. Except for the cases of provisional promotions, the university shall facilitate credit transfer of students between them however, the student may be required to fulfil some eligibility criteria, drawing parity for a course, framed by the University in which the student seeks admission.

G.Requirement of the Laboratory Support and Library Resource:

In an online learning BBA programme, practical learning support will be provided through various interactive methods, such as business simulations, case studies, and virtual workshops. Digital tools and business analytics software will be used to create a virtual environment where students can apply theoretical concepts to real-world business scenarios. Additionally, students may have remote access to financial databases,

management software, and other business-related resources. Instructors will record practical demonstrations, such as financial modeling, marketing strategies, and business decision-making processes, and provide students with access to these videos for self-paced learning. Furthermore, video conferencing tools will be used to conduct live interactive sessions, where instructors will demonstrate business applications, guide students through hands-on activities, and address their queries in real time.

H. Cost Estimates of the Programme and the Provision:

This programme was already designed and developed in the conventional mode. In this process of overall development according to the current scenario, the cost estimate of all the metrics, components, equipment, advanced lab & maintenance cost for this programme comes to amount of Rs. 5390900 and provision is made of Rs.5400000.

I. Quality Assurance Mechanism and Expected Programme Outcomes:

The programme structure of online learning BBA programme is developed under the guidance of the expert committee and Board of Studies and Faculty Board. It is developed as per the guideline of statutory bodies. It is approved by Board of Studies, Faculty Board and Academic Council of the University. The programme structure of the online BBA programme is designed under the guidance of an expert committee, the Board of Studies, and the Faculty Board.
